**Water Quality:** Horsham District Council in partnership with Southwater Watersports Centre maintains supervision of Cripplegate Lake and surrounding area but as a large body of untreated open water hosting a range of wildlife, factors beyond the Council's control may create an unsuitable environment for watersports. In such circumstances the Council reserves the right to close the lake to watersports activities.

The lake water can also have varying bacterial levels which cannot be controlled and so people who take part in watersports at the lake should, therefore, be aware of the inherent risks associated with inland open water such as Leptosirosis (Weil's disease) and the Council and Southwater Watersports cannot be held liable for any ill health resulting from such activity.
